"Smile Stars Pediatric Dentistry and Orthodontics is committed to you and your needs. This commitment is founded on a "faith and value centric" purpose through services and trust. We are truly blessed by the opportunity to be a positive influence in the lives of you and your children.

As a parent you may wonder, "Is it really necessary to bring my child in for his/her regular cleaning appointments? Couldn't I wait another 3 or 6 months?"

- Now more than ever, we want our patient's families to know that dental care for children is a medical necessity. It is important to keep up healthy habits at home and to schedule your child's routine visit.
- We appreciate and understand our parents' concerns involved with resuming health care, so if you have any questions at all about your child's need for a checkup, please call or e-mail us so we can discuss your child's needs and your concerns.
- Good habits can be challenging to keep when your usual routine changes. Although school is out of session, it is important that your children brush for two minutes, twice a day, with fluoridated toothpaste. It is also important to maintain healthy eating habits, including limited snacks each day. Encourage your children to drink water or milk instead of juice, soda or sports drinks as well.

Smile Stars Family,

As we continue to navigate the ongoing challenges of 2020, our vision becomes clearer; one of selflessly serving the increasing needs of others. We are simply committed to that purpose.

Having diligently prepared with uncompromised protocol and safety guidelines, we are confident in our ability to provide the highest degree of safe and effective dental care for your family.

Prayerfully, faith in the future shall provide the peace and understanding we all seek during these days of uncertainty.

We are truly blessed and walk humbly with you.

Our Best,

Dr. Steve, Dr. Matt, & Your Smile Stars' Team

Mudbug Academy serves families who seek a more structured early learning experience that's heavily focused on physical development, preparatory academics and character-shaping values, delivered professionally and compassionately in a safe, welcoming environment. We prepare little learners for a successful life ahead on a solid foundation of physical education, functional skills and faith-based values.

Crawfish Swim School

Warm 88 degree water and air temperature means swimmers are "shiver free" in & out of the pool. The pool is chlorinated with a UV and ozone filtration system. The pool sanitation system provides sparkling-clean water without the heavy chlorine effects of red eyes, itchy skin, or damaged hair. Our top of the line air filtration system provides the best indoor air quality- even for those with respiratory problems. Enjoy a comfortable viewing area with Wi-Fi, family changing rooms and an interactive play area.
