Star Patients

These girls are twin-tastic! They had a wonderful first visit. Their joyful smiles light up the room. Keep shining bright!

MOUTHWASH MADNESS FOR KIDS:

Benefits of using mouthwash: It is meant to be an adjunct to your child's current oral hygiene routine. Mouthwash gives children fresher breath, and some contain fluoride to provide additional cavity protection for kids over the age of six. Using mouthwash can also be helpful for children who haven't quite mastered flossing. It allows them to reach the areas that they didn't get to. If your child wears braces, mouthwash can loosen bits of food that often get stuck in the brackets, ensuring a more thorough cleanse while in braces.

Mouthrinses such as Listerine Total Care or Act are great choices because they prevent decay, restore and strengthen enamel, and kill bacteria that cause halitosis (bad breath). When shopping for oral hygiene products, it is best to look for those with the ADA Seal as seen below.

Cavity Free Club

Our Cavity Free Club serves as a reward system to help our patients develop and maintain good oral hygiene habits. Every patient has the opportunity to become a member. Those without cavities at their routine cleaning and exam will become members of the club. Members of the club are entered into a monthly drawing to receive prizes!

Winners will be chosen the first week of August for the following prizes:

1st place- Movie Theater Gift Card (for a family of 4)

2nd place- \$25 gift card to Jump N Jive

3rd Place- \$15 gift card to The Great American Cookie Company

Jeremiah's Travels

It has been an amazing summer so far! Jeremiah traveled to the Mall of LA and he loved interacting with all of these smiling faces. He even recognized some of our very own Smile Stars! Thanks OLOL Children's Hospital for putting on such fun events for the children.
